## Wyoming Spirit Highway Sacred Site Gatherings

**June 16, 17, 18**

*The Life Fire of the Wild & Free Bison*

For 17 years, "Honoring Sacred Sites Day" has gathered people of diverse faiths and nationalities for ceremony at spectacular sites under the leadership of Lakota spiritual Chief Arvol Looking Horse, as part of World Peace & Prayer Day celebrations on June 21st. For 2012, Chief Looking Horse and a group of friends and supporters will make a three-day journey along Wyoming's "Spirit Highway Route" to the Grand Teton World Peace & Prayer Day site, with the intention of healing and maintaining the energy of the the wild and pure bison.

The Spirit Highway Route will carry the bison energy from an opening ceremony JUNE 16 at Bear House Mountain, ("Devils Tower"), continuing JUNE 17 to the Big Horn Medicine Wheel, to the East Gate of Yellowstone National Park, traveling through the last remaining "wild and free" bison grounds, to the Grand Tetons. Chief Looking Horse has created the Spirit Highway Route to activate energy from all three sacred sites, greatly magnifying the energy of the World Peace & Prayer Day sacred fire ceremony, which has been named: "Life Fire of the Wild & Free Bison." Participants who feel called to help hold and maintain this energy are warmly invited to join and offer their help for this unique journey.
